

## HOW TO TIE A DROPPER LOOP

*Forms a loop anywhere on the line without cutting the line.*

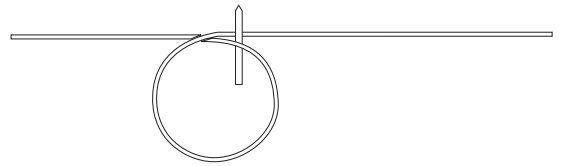

*Handy for "easy change" attachment of hooks & sinkers. Traces can be attached also.*

### STEP 1

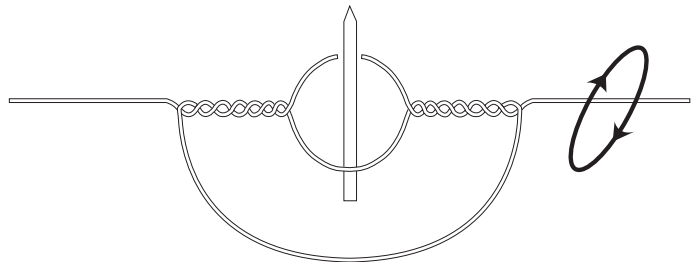

### STEP 2

Form loop & insert short pencil.

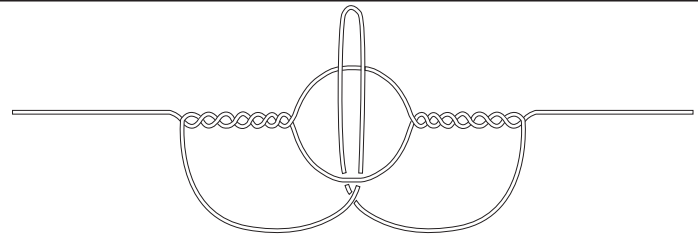

### STEP 3

Rotate pencil to form at least 7 twist loops either side of pencil

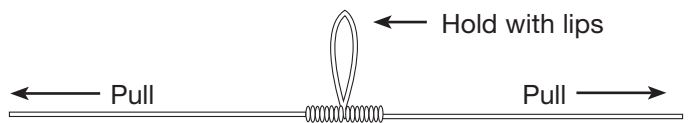

### STEP 4

Remove pencil and push dropper loop through loop left by pencil.

### STEP 5

Moisten. Hold top of dropper loop in lips and pull tight.

### DROPPER LOOP IN USE
